"In Russia, as in other countries, there are two groups of socialists—the national socialists, who favor war, and the international socialists, who favor a union with brotherhoods in other countries in the interests of peace. It appears that in Russia the latter group is in the majority, but to interpret this as a move for a separate peace with Germany is absurd. A sinall number of socialists undoubtedly will attend the international conference at Stockholm, just as isolated groups of men met before and during the war to discuss peace, but they will not represent any large element in this country."

L. W. Marginal Prices for Wheat Fixed for Chicago Board of Trade.

CHICAGO, April 21.—Marginal prices for wheat were fixed by the board of directors of the Chicago Board of Trade today, the effect being to discourage gambling in futures. The marginal price on July wheat was placed at \$1.85 a bushel and on September wheat at \$1.65 a bushel.

\$1.65 a bushel.

The action relates only to transactions between members of the board and gives them the privilege of "calling" one another for margins in addition to the regular 10 per cent, so that if July wheat sells for \$2 the buyer puts up the regular margin of 10 per cent, or 20 cents, and in addition the extra margin of 15 cents, the difference between the marginal price set at \$1.85 and the selling price of \$2.
